Electrical Requirements:

Australia / New Zealand 100-240V 50/60Hz
Due to manufacturing alterations product may vary slightly from the pictured.

SAFETY PRECAUTIONS

Read all instructions carefully.

- All components need to be installed in accordance with the user manual instructions for correct performance of unit.
- This product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure they do not play with the product.
- Do not operate the unit with a damage cord or plug or after the unit malfunctions or has been damaged in any manner.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- Unauthorised disassembling of the product will void the warranty.
- Do not operate the unit outdoors. This unit is intended for indoor use only.
- To protect against fire, electric shock and personal injury, do not immerse cord, plugs or product in water or other liquids.

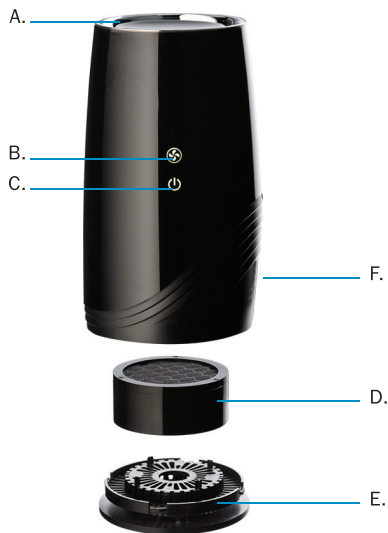

- Operate unit on a stable level flat waterproof surface, at least 30cm away from the wall and other appliances.
- Keep the air inlet and air outlet free from air blocking materials such as clothing, plastic bags or papers. Air flow is required for the unit to operate safely.
- Do not place in direct sunlight, high temperature areas or near sensitive electronic equipment.
- Check voltage to be sure that the voltage indicated on the nameplate agrees with your voltage.
- Switch the unit off and unplug from wall outlet when not in use and before cleaning.
- Do not wash or reuse the filter.
- Do not operate the unit without the filter.

System Specifications

System Specifications	Air Purification System
Model Code	CLI-AP11-B
Unit Power Supply Rating	5V 2.5W
AC/DC Adaptor Rating	Input: 100-240V 50-60Hz 0.3A Output: 5V 1A
Air Flow	10-20m ³ /h
Product Dimensions	L115 x W115 x H209 (mm)
Filter Replacement Code	CLI-AP11-RF

PARTS IDENTIFICATION

- A. Air Outlet
- B. Fan Speed
- C. Power On/Off
- D. Filter
- E. Filter Cover
- F. Power Input

OPERATION INSTRUCTIONS

1. Locate a flat stable location and plug the power cord into the appropriate electrical outlet.

The unit can also be powered by plugging it into a computer USB port.

2. The power icon will illuminate. Touch the Power icon to turn unit on.
3. The Fan Speed icon will now illuminate and the fan will start running on low speed. To change to high speed touch fan icon again. The icon illuminates blue on high speed.

CLEANING AND MAINTENANCE

CAUTION: Before carrying out cleaning or maintenance of the product, always turn off and unplug the cord from the power socket and unit.

- Do not rinse the unit or immerse the unit in water.
- Do not use abrasive cleaners or brushes to clean.
- Clean the outside surface of the unit with a soft cloth.

CHANGING THE FILTER

The filters used in this unit are not designed to be washed or otherwise reused. When the life of the filter reaches its end, the power icon will flash red indicating that it needs to be changed.

While the length of time between filter changes will vary based on the amount of use and the conditions in which the unit is run, it will be approximately every 6 months.

To replace the filter, turn off unit and disconnect the power.

Turn the filter cover anti-clockwise and pull outwards. Remove old filter and discard. Install the new filter, ensuring that the white side (HEPA) is facing outwards. Re-instate the filter cover. To reset the filter timer, hold down the Power Icon until it stops flashing.

Your Aquaport Australian 12 Month Repair or Replacement Warranty

Aquaport warrants this appliance to the first purchaser and subject to the stated conditions:

Warranty covers any defects in material or workmanship in the manufactured product within the first twelve months from the date of purchase.

To make a warranty claim you must call Aquaport on toll free number 1300 764 325 for instructions. If a product is found to be faulty there is a 90 day return policy from the date of purchase.

For warranty claims outside of 90 days from date of purchase, product will be repaired or replaced at our discretion. Repair or replacement costs of the product will be covered under warranty by Aquaport.

Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods.

Warranty does not cover filters which are consumable unless proven to have defects in material or workmanship in the manufactured product.

The benefits given to you by this warranty are in addition to other rights and remedies of the consumer law in relation to the goods or services to which this warranty relates.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if goods fail to be of acceptable quality and the failure does not amount to a major failure.

Conditions Of This Warranty:

1. This product has been fully installed in accordance with the user manual installation instructions.
2. The warranty extends only to repairing or replacing any component that proves to be defective in material or workmanship.
3. The warranty does not cover defects occasioned by misuse, alterations, accidents, or used for other than the intended purpose.
4. The warranty does not cover damage to the product caused by accident, fire, floods, power surges or black outs.
5. Proof of purchase is required for warranty claims.

Please keep purchase receipt in a safe place.

To enable us to register your warranty and provide service should a problem occur, we recommend you register your warranty online at: www.cli-mate.com.au/warranty-and-registration
