What Owners Have To Say

"We can't live without this! We travel with it - makes our kids at ease in new environments. Continuous mode is a lifesaver!"

Claire, Chicago IL

"Love this sound machine. I am a light sleeper and it works great for me. I told my sister about it and ordered one for her who used a fan just for noise. She loves it and just had a baby and uses it to get some sleep."

Dana, Jacksonville, FL

"I absolutely LOVE this machine. I use it for my two year old daughter and since I have put it in her room, we don't feel like we need to be completely quite when she sleeps. I also bought one to use for my week old son. I would highly recommend this to everyone with children."

Jen, FL

"The best sound machine I have seen on the market for babies. Highly recommend it. Others have very poor sound quality that sounds abrasive and harsh. The sound from this machine is clear and soothing. My daughter is 3 and we still use it only to drown out the sounds of my husband's snoring! She also likes the lullaby music."

M.T., Hebron, CT

"My daughter says this machine saved her life. She uses it every night to help put my little granddaughter to sleep. She loves it!"

R.C., Riverside, CA

"This is the BEST sound machine! We used it for my daughter when she was a baby now use it for my son. 2 times a day for 6 years! All of the sounds are relaxing. Use the batteries and the sound will not stop during storms or power failure. Travels well too. It is worth EVERY cent!"

M.M., NC

"This product has been amazing for our newborn. We turn on the machine at night and for naps during the day. Its sounds seem to comfort and lull our little one to sleep. Couldn't say enough great things about this product!"

S. Grabury, TX
